

Entity Generator

Generate entities using intergeneration times from dialog or upon arrival of events. Optionally, specify entity types as anonymous, structured, or bus.

Entity generation Entity type Event actions Statistics

Generation method: Time-based

Time source: MATLAB action

Intergeneration time action:

```
1 % Random number generation
2 coder.extrinsic('rand');
3 ValEntry1 = 1;
4 ValEntry1 = rand();
5
6 index = 1;
7
8 % ... del generador
```

Insert pattern ...

☒ Generate entity at simulation start
